

BUCKINGHAM PALACE CONFERENCE FAILURE!

CORONER'S JURY FINDS DEAD MAN WAS AGGRESSOR

George Penney, Who Died from Bullet Wound at Lloydminster, Himself to Blame.

ATTACKED CHAS. MASON; DEFIED HIM TO SHOOT

Mason, in Shooting to Injure Penney's Leg, Drilled Hole Through Body.

A charge of manslaughter has been preferred against Chas. Mason, the young Englishman, who shot George Penney, a young Englishman, near Lloydminster on Saturday last. Mason fired a mauler pistol at Penney and as his power discharge drilled Penney right through the body. As a result of the injury Penney died in hospital the following day.

According to the evidence of Penney himself, taken just before his death, and from two witnesses, Penney seems to have been largely to blame for his own death. Penney is a householder and not Mason, a young Englishman, who had come out from London, at Fort George. Penney had a home at Lloydminster and about the beginning of June he and Mason took up residence there.

Attacked Mason. On the day before he received the fatal wound Penney had been drinking and that night Mason came up to his room and Penney, who was a gun and began to put cartridges into a gun and then closed with him, and the struggle Penney let go his hold on the gun and seized Mason by the wrist. After a while they ceased to struggle and Mason went out and stayed the night with a neighbor.

The following day Penney came up to Mason, that said, "I hear that you are going to put me out," adding, "Come right on with it now." Penney then attacked Mason and hit him several times on the head, and also struck him. Mason got away and went to the house where he obtained a mauler pistol, a weapon with which he made it almost like a rifle.

Only Mean to Disable. Penney was advancing brandishing a bottle and Mason told him to stand back. Penney said, "I mean to disable you," and then he fired. When Penney was about fifteen yards from Mason and the bullet went right through Penney's stomach. Two other friends, L. M. Woodward and George Macdonald, witnessed the affair and when Penney fell they came up and placed him in a wagon, taking him to hospital. Mason said: "I did not mean to kill him there, I only meant to hit him in the leg."

On the advice of his lawyer Mason moved his defence for the highest court.

The coroners jury found that Mason fired the shot in self defence.

INDIANA OPERATOR IS TO DRILL AT CHALEY; OIL SEEPAGE IS FOUND

Harry Sumner, driller, of Fairmont, Indiana, went through the city yesterday en route to his home town to work on the drilling of the Chaley oil well at Chaley, immediately north of Fairmont, on the C.N.R. line.

Sumner, who is an extensive operator in his own country, spent a week in the Birch Lake territory examining the field and evidently found sufficient evidence to satisfy him as to the possibility of an arrangement for drilling upon which to drill. His location was in the north of Fairmont, where water well drillers struck a little reservoir of oil some three weeks ago and he had for the territory he has located was made with these same findings. His purpose in drilling is purely to develop a production and he will after no stock for sale, carrying out the work with his own rig, under his own supervision and on his own account. He expects to have the rig on the ground inside of six weeks.

Huerta Reaches Kingston. Kingston, Jamaica, July 24.—General Huerta, and his party of the ship, from Mexico accompanying him, arrived here at noon today on board the German cruiser Dresden, from Puerto Mexico.

NO INVITATIONS FOR RECEPTION TO DUKE; EVERYBODY WELCOME.

It was announced at Government House today that no invitations have been issued, or will be issued, for the reception to be given by the Lieutenant-Governor on Monday to the Duke and Duchess of Cornwall.

The Duke has been requested that the reception be an informal one, and his wishes will be followed in the matter. Everyone who wishes to go may do so without a special invitation. The reception will take place between 3 and 4 in the afternoon.

TRAINS TO COAST MIDDLE OF NEXT MONTH BY G.T.P.

No Stop-over Between Edmonton and Prince George, Says Duperou.

MAY GIVE CALGARY TWICE-DAILY TRAINS

Service to Rupert Will Have Far Reaching Effect on Country.

"We will be running daily trains from Edmonton through to Prince George, thus eliminating the stop-over at McBride, by the middle of next month, according to present intentions, and from Prince George to Prince Rupert, we will operate through trains about three times a week," stated W. E. Duperou, assistant general passenger agent of the Grand Trunk Pacific, who is in the King Edward hotel today with W. J. Quinlan, district passenger agent, of Winnipeg.

"The daily through train we started last month between Edmonton and Calgary, via Canmore, doing a splendid local business, and it is possible that it may be added to at the next revision of the schedule, to take place soon."

Mr. Duperou did not say whether it was intended to make faster time with the daily train now running between the two cities, or put a new night train on, which would make only a few stops, but it is believed that the latter fact will be taken into view of the fact that there are two trains running on the main line, only one of which can now connect with the Calgary train.

Messrs. Duperou and Quinlan left at 12:30 noon for Lake Wakarusa, where the school teachers are holding a picnic this afternoon, under the auspices of the provincial department of education. They came here from Calgary and expect to go out in a couple of days.

The news that a daily through train will be put on between here and Prince George will be welcome to Edmonton people, as well as to those living along the G. T. P. west of McBride.

It is further requested in the petition that the commissioners investigate the surplus accumulated by the power and light department and see if such surplus should not go toward a reduction in power costs to the consumers of the city. The power consumers were received by the board and considerable discussion followed. As viewed by the consumers, the sliding scale now in use is unjust, as it forces the consumer of an average amount of power to pay a high rate in the total than he consumed.

Commissioner Chalmers stated that if consumers will contract to use a maximum amount of power, a more favorable rate may be offered. He

placed under the care of the ship's doctor.

The Japanese had evidently carefully planned to make a sortie from the ship, as when they were picked up they were clothed in bathous suits and had their clothes strapped to their backs. They were accompanied with the strong nature of the tide running through the pass.

Commander Rose, when nearing Victoria, returned the two Japanese aboard the ship from which they had been taken to their departure.

The Komagata Maru passed out beyond Cape Flattery last night. The Balmow is expected back from sea tonight.

HAITIEN GOVERNMENT TROOPS NOW HOLDING TWO OF THE TOWNS

Cape Haitien, Hayti, July 24.—Battled Haitien troops today took possession of the towns of Limonade and Quartier Morin, which were vacated by the rebels who retreated to Morne and Forge where fighting was still in progress this morning.

AUSTRIAN RESERVISTS INSTRUCTED TO HOLD THEMSELVES READY

Berlin, July 24.—Austrian reservists reading here were instructed today to hold themselves in readiness to return to Austria and join their regiments at the shortest notice.

Count Alexander Roma Dead. Athens, July 24.—Count Alexander Roma, who was leader of the Greek revolution during the last Balkan war, who was wounded, died here today. He was a member of the Chamber of Deputies, of which he was at one time speaker.

He formerly held the post of minister of education in the Greek cabinet.

Fine and warm today and Saturday.
EDMONTON, FRIDAY, JULY 24, 1914

M'NAMARA WILL NOT BE PRESENT AT THE MEETING

Mayor Says That He Has Not Been Invited and if He Had, He Would Not Attend Because He Does Not Consider the Proposed McDougall Church Gathering a Public One.

Mayor McNamara will not attend the meeting which is to be held tonight in the McDougall Methodist church for the purpose of considering the re-investigation. When he was asked whether or not he would attend, the mayor said:

"I have not been invited to attend the meeting tonight, but if I had been invited I would not attend in my capacity as the mayor of the city. Section 11 of the city charter provides for the proper machinery for the calling of a public meeting to discuss the affairs and matters pertaining thereto. The meeting tonight therefore cannot be considered in the category of a municipal public gathering. If at any time the proper method is adopted for calling a public meeting it will be my duty, and also my pleasure, to call and attend the same."

The same expression was voiced by Commissioner Booth.

Section 46 of the Edmonton city charter provides as follows: "No meeting shall be held at any time by the written petition of 30 electors, the mayor shall, by a printed public notice conspicuously posted at the city hall and in at least 10 public places in the city, call a public meeting of the electors for the discussion of the municipal affairs of the city or any matters relating thereto."

POWER CONSUMERS DEMAND CHANGE IN BASIS OF CHARGE

Petition is Presented to Commissioners Stating That Rate is Now Unfair—Maximum Contracts May Be Considered—Sewer Troubles Considered and Adjusted.

Asking that the present power rate be changed from the cumulative basis to the basis that each unit power apply to the total consumed from zero to the total against which unit price applies, a petition was received by the city commissioners in session this morning, signed by the Edmonton Cold Storage company; Galters' Limited; Edmonton Electric Limited; Harris Dairy Products, Limited; Woodland Dairy, Limited; Rendall, Macleod, & Co., Ltd.; Potomac Creamery company; P. Burns company, Limited; Edmonton Printing and Publishing company; Royal George Hotel, King Edward Hotel, Hotel Selkirk, and the Yale hotel.

It is further requested in the petition that the commissioners investigate the surplus accumulated by the power and light department and see if such surplus should not go toward a reduction in power costs to the consumers of the city. The power consumers were received by the board and considerable discussion followed. As viewed by the consumers, the sliding scale now in use is unjust, as it forces the consumer of an average amount of power to pay a high rate in the total than he consumed.

Commissioner Chalmers stated that if consumers will contract to use a maximum amount of power, a more favorable rate may be offered. He

TWO JAPANESE MAKE DARING ATTEMPT TO QUIT KOMAGATA MARU

They Dive Overboard and Within a Few Seconds One of the Rainbow's Outlets is Lowered and Gets to Them in the Nick of Time to Save Them From Drowning.

Vancouver, B.C., July 24.—As the Komagata Maru was passing through Plumper's Pass two Japanese were seen to dive overboard, and the "overboard" signal was given to the conveying cutter.

Within a few seconds one of the Rainbow's cutters was lowered and manned.

With a strong breast stroke the two Japanese swimmers were endeavoring to combat the fast running current, but they were fast becoming exhausted. In the nick of time the Rainbow's cutter overtook them and brave men hauled the half-drowned men into the cutter. They were then put aboard the Rainbow and placed under the care of the ship's doctor.

REGINA'S POLICE INVESTIGATION AT A SUDDEN FINISH

Regina, Sask., July 24.—Regina's police investigation before a district court judge came to an abrupt ending this morning when P. B. Bagshaw, who was expected to press the charges against Chief Berry, retired, because he had not been retained by the city and could not afford to give his services free.

An adjournment was made to August 24, when it is probable the city will engage a solicitor to present complaints against the police.

SOON READY FOR TRAFFIC ACROSS THE CONTINENT

"Rod" Mackenzie, Son of Sir William, Passes Through City for West.

WORK IS PROCEEDING NOW ON ALL BRANCHES

Cut-off to Canmore Practically Completed—Lac Ste Anne Trains.

If present indications pan out it will not be long before the Canadian Northern, as well as the G.T.P., will be running trains through Edmonton from coast to coast, and also in several directions in and out of the city by lines now under construction.

It is well known that at least half of what should have been the premier season of construction in Alberta for the Mackenzie and Mann system has been lost, because of the financial stringency, but now that financial arrangements have been completed, through the aid of the government, it is believed that construction will be pushed.

At Edmonton it is already at such an advanced stage that comparatively little work needs to be done.

It is probable to inspect what has already been done, and to decide as to what work should be finished up this season and what new projects should be undertaken that R. J. Mackenzie, son of President Sir William Mackenzie, and Mr. H. Macleod, will go through to the front on the main line before returning, although it is believed Mr. Macleod will return in a couple of days.

Stay Only Half an Hour.

The party arrived on a special car attached to No. 1 from the east at 7:05 this morning, and left on a special train for the west half an hour later.

Mr. Mackenzie has in the past been connected with the construction end of the C.N.R., and it is stated on an official authority that his present trip west is for the purpose of seeing the contractors who have built stretches of the road, and to let any contracts which may not already be let, also to inspect the work finished. He is "Rod" Mackenzie, the well-known horseman, and is mentioned for the position of second vice-president of the Canadian Northern system, which has never yet been filled, although D. B. Hanna, Toronto, is third vice-president.

St. John, N.B., July 24.—Chief of Police W. W. Clark made the alarming statement at 2:30 p.m. that he expected conditions to be more serious and the only way he could see to avert trouble was a temporary settlement of the strike.

An alarm rumor is spreading over St. John this afternoon to the effect that 4000 labor men will arm themselves and prepare to meet force with force. This possibility is received with deep concern.

The owner of an up-town restaurant was called upon by several strike sympathizers today and told that if he fed the strike-brothers they would blow his place to atoms. H. M. Hooper, general manager of the street railway at 4 p.m. authorized this statement: "There is no chance of the strike being settled so far as we are concerned."

St. John, N.B., July 24.—As a result of last night's rioting in alleged sympathy with the striking street car employees, early this morning the infantry and artillery regiments at St. John were called out by their commanding officers, the general orders issued instructing every officer and private to repair to the armory with rifles, sidearms and ball pouches at once. A request was also sent to Fredericton for a detachment of regulars and a reply has received that they were on their way and would arrive shortly. The city is quiet this morning and there was absolutely no demonstration when a hundred or so of the striking street railway employees marched to their quarters. The citizens are parading the streets in crowds, inspecting the damage done by the rioters last night, which amounts to several thousands of dollars.

As the result of the rioting and disorder which occurred in St. John last night, a proclamation will be issued.

(Continued on Page Three.)

COSSACKS CONTROL STRIKE SITUATION IN ST. PETERSBURG

Squadron of Cavalry Charges and Disperses a Crowd of Disturbers—Stones Are Hurlled at the Cars as They Proceed Through the Streets of the Russian City.

St. Petersburg, July 24.—Sturm measures were taken by the authorities to suppress the strike riots which have been in progress for several days in the streets of the capital, during which a large number of casualties have occurred. In the conflicts between the police and Cossacks on one side and the striking workmen on the other, considerable injury was shown during the presence here of Raymond Foincarde, president of French republic, who immediately after his departure

regiments of cavalry and cuirassiers arrived to assist in suppressing disorder. A squadron of the cavalry at once charged, and dispersed a crowd of strikers.

Street car service, interrupted for 45 hours, was restored today. Strikers hurled stones at the cars as they proceeded through the streets but the manifestos were quickly dispersed by Cossacks. One significant feature of the strike is that the movement has been joined by many government employees.

MUSICAL PROGRAM WEDNESDAY BE A RARE TREAT

There Will Be Music in the Air From Nine in Morning Until Late Night.

VICTORIA PARK THE MECCA OF PICNICKERS

Large Number of Seetees Put Out Under Trees and on the Beautiful Lawns.

That Monday may be a gala day and a real holiday in honor of the visit of the governor-general of Canada, Commissioner Harrison has arranged for the following musical program: Starting at 9.15 o'clock in the morning the Citizens' band will march through the principal streets of the city on the way to the parliament buildings, where a number of selections will be played awaiting the arrival of His Royal Highness and party.

From 11.30 until 12.30 the 101st regiment band will play on College avenue in front of the old high school building.

At 12.30 o'clock the Edmonton Band-pipers band will march through Jasper avenue west to the government house and down to the golf links.

At 12.15 the Newsboys' band will march through the city streets, where they will play several pieces.

THOUSANDS TO SPEND WEEK-END AT SUMMER RESORTS NEAR CITY

Thousands will take advantage of the fact of Monday's being Civic holiday to go to the several summer resorts in the Edmonton district.

The commercial travellers will run two special trains leaving here at 9 and 9.15 a.m. to Lake Wabamun, where there will be a big picnic such as only travellers can have.

Hundreds of others, who ordinarily spend only part of Saturday and Sunday at that popular resort, will stay over till Tuesday morning. The G.T.P. has arranged for their convenience, to have the train which reaches the city at 1 p.m. arrive at 9.30 a.m. next Tuesday, while Monday's train, which on other weeks arrives at 9.30, will next Monday come in at 1 p.m.

The other big crowd of the week-end will go to St. Albert, where the canoe club will hold a regatta Saturday and another Monday, and where the Metropolitan church Sunday school south side, will hold its annual picnic Monday.

As usual on Saturday the canoe club's train will leave the city at 2 o'clock, returning from St. Albert at 11 p.m., and reaching the city in time to catch the last cars.

On Monday the Canadian Northern will run two special trains, leaving First street depot at 9.30 a.m. and 1.30 p.m., and leaving St. Albert returning at 8 p.m. and 11.30 p.m.

The regular Athabasca train, leaving the city at 8.30, and St. Albert, southbound, at 8.30, will run on both days.

Killed at Vegreville
Mike Migley, a farmer living at Vegreville, came to his death yesterday in that town, by having a large box of binder fixtures fall upon him, crushing him badly and causing immediate death.

Must Leave the City
Gene Barrett, famous during the police investigation, was this morning brought to the police station and told by Detective Krohn that he must leave immediately or he would be arrested on a vagrancy charge. Barrett left the station with the intention of staying over.

TRUSTEE BARNES SAYS STATEMENTS ENTIRELY TRUE

Declares Appointment of Miss Munroe Never Referred to Committee.

OBJECTS TO RAILROAD METHODS ON BOARD

"Public Should Have More Than One Choice for Such Responsible Position."

There were lively discussions at last night's meeting of the school board, chief among which was the attack upon Trustee S. A. Gordon Barnes, by Mrs. Jeanie Hume, in which she stated that Mr. Barnes had deliberately "held up" the school management committee in regard to the appointment of Miss Lillie F. Munroe to the position of supervisor of primary grades and kindergarten.

The statement in a form paper to-day that the matter of finding the new position had been before the committee for some considerable time, and had been referred to the school management committee, was said by Mr. Barnes to be entirely untrue, who says that the matter was never referred to the committee, and has the verbatim report of all meetings to prove his assertions.

It is simply another case of them wishing to railroad an appointment, said Mr. Barnes today, and that as a representative of the public and the 3,500 voters who voted for him last election, he feels it his duty to object to such railroad methods, and demands that there be more than one teacher nominated for the position, that the public and the school board may have choice of different ladies who are eligible for the position. There has been but the one teacher mentioned for discussion, namely, Miss Munroe. No other nomination for the position has ever been brought forward.

The question of who is to be at the head of the physical department of the schools is also cause for discussion, the two men for the position being George R. Jackson and Captain Flint, but Mr. Barnes is entirely in favor of the motion made last night by L. T. Parry, in favor of Mr. Jackson.

INFANTRY AND ARTILLERY ARE OUT IN STRIKE

(Continued.)
This afternoon warning all citizens to keep off the streets tonight, at that popular resort, will stay over till Tuesday morning. The G.T.P. has arranged for their convenience, to have the train which reaches the city at 1 p.m. arrive at 9.30 a.m. next Tuesday, while Monday's train, which on other weeks arrives at 9.30, will next Monday come in at 1 p.m.

Early this morning the mayor was assured by Col. Humphrey of the garrison that a special train had been ordered and that 200 regulars would train for St. John unless local conditions meanwhile justified the cancellation of the order. Squads of volunteer infantry and artillery men of the local divisions are in uniform and ready for action.

His company of the Royal Canadian regiment at Fredericton has also been ordered to hold themselves in readiness to train for St. John.

The street railway men repudiate responsibility for last night's disturbance. This morning Sidney Mosher, representative of the International Street Railwaymen's union, said: "There will be no demonstration at all today. The union still stands out for its demands but in favor of the most peaceful, fair minded consideration of their case, and is open to meet the company at any time. We want it clearly understood that none of the men on strike had anything to do with last night's demonstration."

At 11 a.m., the mayor received the following message from Hon. T. W. Crothers, minister of labor: "I am leaving for St. John on the first train and hope to assist you in settling matters from Halifax."

Mr. Crothers only last night returned from Halifax.

In the St. John case, a conciliation board was applied for, but the company would not appoint a representative. The board was convened, however, and found in favor of the men's most points, including a recommendation that the president of the union be reinstated. The company declined to do this and dismissed more men and the trouble followed.

Hudson's Bay is Here to Help Every Person "Sleek up" for the Royal Visit!

Saturday up to \$25 Suits for Men Will be \$10 to 185 Men Who Come Swiftly For Them!

JUST BEFORE THE HOLIDAY,—ANY HOLIDAY FOR THAT MATTER,—There's a race among men in general to procure something to wear,—perhaps a suit, perhaps any one of a dozen other dress requisites. And for men who see in this offering,—or rather these special holiday offerings, reason for some speedy work Saturday early,—to them will come the satisfaction of a rosy saving, and something to wear which they will be proud of.

All Our 1914 Models,—But Stocktaking is at Hand.
That's why all this haste to see them here. We don't want to see them on our inventory,—nor will we! SOCIAL AND PERSONAL

THE GAY WORLD.

Miss McKenny is visiting in Banff.

Mrs. C. Dunham returned last night after a delightful visit of three weeks in Winnipeg and other points east.

Miss Besse and Miss Gladys Stocks entertained at a delightfully informal summer dance last night. Sweet peas were the decoration in all the rooms. The guests included Miss May Neil of Windsor, Ont., Miss Marie Murray, Miss Elizabeth Wastie, Miss Wilbur, Miss Edna Natz, Messrs. F. Hall, Sinclair, Fred Mitchell, Charles Mitchell, Burge, McIntosh, McInnis.

Mrs. J. H. Woods left this morning for Edmonton to accompany Mr. and Mrs. Jennings of Edmonton, and Mr. and the Misses Southam, on their trip to Jasper Park—Calgary Daily Herald.

Dr. T. J. Albert of Alberta University is spending a few days in Calgary.

The following guests have been invited by Senator and Mrs. Loughrey to have the honor of meeting their royal highnesses the Duke and Duchess of Connaught, Princess Patricia, and their entourage: Miss Katherine Villiers, lady in waiting to H.H.H. the Duchess of Connaught; Miss Dorothy York, lady in waiting to H.H.H. the Princess Patricia; Colonel Piquar, Captain Buller, Captain Rivers-Bulkeley, and Mr. and Mrs. J. S. Nolan, Judge and Mrs. Winter, Colonel and Mrs. Sanders, Mrs. J. S. Jones, Miss Edith Bennett, and Mr. R. B. Bennett—Calgary Daily Herald.

Mrs. James Bell, Seventh street, is the hostess tonight.

Miss Beulah Griffin of Dauphin and Mr. P. T. Nichol of Winnipeg are guests of Mrs. and Mrs. Poucher at their camp at Cooking Lake.

Mr. and Mrs. Oswald Pinney of Ottawa have taken an apartment at the River Le Marchand and will spend about two months in the city.

Mr. and Mrs. R. H. Hale of London, Ont., are expected to arrive today, to the guests of their daughter, Mrs. Hendley, Victoria avenue.

Misses Laura and Dorothy Bramley-More leave tomorrow for Lloydminster, to visit Mrs. Pollard.

Miss Edith Elwood, Belleville, Ont., is the guest of her sister, Mrs. R. C. Chown.

Miss Macdonald, who has been the guest of her sister, Mrs. Bach, leaves tomorrow for Kelso, B.C., to spend the rest of the summer with her mother, Mrs. Hughes.

Express Thanks.

Mr. and Mrs. Joseph Larose, 529 Fourteenth street, wish to express heartfelt thanks to all friends who showed their sympathy during their recent sad bereavement in the loss of their daughter, Marjorie.

Dr. Moss is Honored.

London, July 24.—Waddy Moss, professor of theology in Dalhousie college, and a colleague of Professor Jackson, of Fredericton, have been elected president of the Wesleyan conference for 1915.

ART, GRAPHIC AND APPLIED, WILL BE SPECIAL FEATURE

Edmonton Exhibition Association Recognizes Their Value and Encourages Them.

SPECIAL CLASSES ARE ARRANGED THIS YEAR

Exhibitors Should Make Entries at Once—Next Monday is Last Day.

In these days when prosaic business necessarily creeps into every walk of life, even that least designed for purely practical purposes must needs be adapted to them. There is nothing so practical on the other hand, that it may not be improved by even a suggestion of the beautiful. Advertisement, gain in value through the addition of a picture, perhaps a few curved lines—a simple scroll placed where actual necessity does not demand them—the medals which attract attention to the advertisement.

The stencilled show card, stamped out with plain black letters, has not the same selling qualities as the tasteful letterhead card. A menu card or concert program has double the attraction if it is evident that some thought has been given to pleasing the eye.

Sometimes we gain a new insight to a favorite poem or quotation when we see the inspiration it has given those whose hands can paint or draw the vision in their minds. All these things have been recognized, and present conditions demand their encouragement. With this in mind special classes have been arranged for graphic and applied art at the Edmonton 1915 midsummer exhibition, and it is anticipated that their intentions at once. The final day for taking them is bound to be even more attractive than last year.

It must not be forgotten, however, that all entries close on July 27, and those who have not yet made entry and desire to do so, should carry out their intentions at once. The final day for taking them is bound to be even more attractive than last year.

DO YOU KNOW

That wholesalers predict satens for dress wear next spring.

That the frilly neckwear is coming back into fashion.

That white straw hats trimmed with tiny green apples are being worn in Paris.

That love is like butter—not much good by itself, but it furnishes the flavor for the dry bread of life.

That the fashionable Paris fan is of white peacock feathers, mounted on tortoise shell.

That many of the new hats are very close-clipped at the back, and a boon to travelers.

That although brocade is little worn for gowns, the brocade evening wrap and day cloak or cape are very much in evidence in London.

That Switzerland's embroidery trade suffered a loss of nearly two million dollars last year because of fashion's decree that soft, clinging materials, shall be worn.

That the principal requirements of cutting clothes is that they be simple and comfortable, and for this reason the mannish skirt continues to be worn by smart women for all kinds of sports.

That there are thirty times as many women bookkeepers, clerks and office workers as there were a generation ago; 55 times as many saleswomen; 40 times as many journalists; 100 times as many packers, shippers and agents; and 200 times as many lawyers.

Children Cry FOR FLETCHER'S CASTORIA

Theatres and Picture Shows

ENTIRELY ORIGINAL MUSICAL GIRL ACT FOR THE PANTAGES

The comedy on the bill for next week's show at Pantages theater is being supplied by two brothers who found out they were entertainers of a high order when they were babies. On the stage they go under the name of Coogan and Cox but rightfully they are brothers.

Jack Coogan told the story in New York one evening, after the show at the winter garden, how he and his brother had come to go on the stage. "Neither of us new anything about it," he began, "until one evening when we were talking to mother and father about our destinies. Then mother told us that ever since we had been born we had been the amusement for the entire neighborhood. We just naturally made funny faces, funny sounds, and would say the silliest things unknowingly much to the delight of the friends of the family. Father told us that one day he took us down to Atlantic City and while walking along the board walk, he was robbed of all his money and tickets back to New York. He didn't know exactly what to do but there happened to be a medicine show in town and he went round and saw the proprietor. He fixed up a deal that if we kids would lay in our coats and behave naturally, he would give father enough money to get back into town. The next morning we were up and for two solid hours we lay in our coats trying to withstand the eyes of what seemed to be the whole world. Mother didn't like it but any way it got us back to town. After we were told that we had to go on the stage with my brother and we framed up an act and after being turned down time and time again we finally landed time and we have been going ever since."

"THE WHARF RATS" FEATURE ATtraction AT BIJOU THEATRE

A film of more than ordinary importance is the shape of "The Wharf Rats" will be the feature attraction on the Bijou theater program for the last two days this week. It is described as a drama of brotherly love and sacrifice, featuring Herschel Mayall and Gertrude Clair. The film is a story of the life of a man who, for her sake, gives up everything. It is a story of the love of a man for a woman who has been wronged in the past. One of the boys goes west because he has disgraced his family name. He sees in a newspaper a personal address to him in which his mother expresses a dying wish that she be allowed to see her boy before she passes away.

The son returns home after his mother has died, but it is revealed that the son who went west took upon himself the responsibility for the misdeeds of his brother, who has always been a scapegoat.

Tonight will be amateur night at the Bijou, and Manager Hazza has one of the best programs he has ever presented in preparation. There will be the guitar and several of the performers who will appear tonight will be talented professionals of more than average ability.

All next week, starting Tuesday, the Bijou management will offer Prof. Loree and Lillian a series of dances including the tango and several other dances of current interest. Free dancing lessons will be given every week from 10 to 11 a.m. and if the classes are sufficiently large a tango dancing contest will be held.

"OUT OF SHADOWS" COMPELLING STORY AT THE EMPRESS

"Out of the Shadows," a compelling story of love and sacrifice, is the feature film on the program at the Empress theater for Friday and Saturday. The picture is a masterpiece of tender sentiment and cold, unvarnished business in the picture which is admirably acted and is provided with settings far better than the average film of this kind.

Another drama with an excellent plot and several characters worth while is on the same program, which is "The Keyhole." This picture also makes its appearance. The presence of a Keyhole comedy on an Empress program is always the occasion for rejoicing.

Musical director Paul has some musical embellishments which are certain to please the large Empress clientele, and serve as an excellent setting for a fine film attraction.

The Empress management is still seeking the names of several young women who desire to enter the contest for the most popular young women in Edmonton. The contest will be in the nature of a popular vote, with a \$600 bonus as the prize.

HINTS TO BUSINESS GIRLS

The road to health and beauty is paved by nearly every woman in business if she will only follow out a few simple common sense rules. The majority of working girls live in a way that would lead to the beauty of the Venetian of Milan. In the first place, the business girl should ask herself the question, "What is my duty to give satisfactory answers? Does she eat the right kind of food? Does she sleep enough? Does she breathe the right way? Does she work in the right way?"

The girl who, instead of going out for lunch, sends the office boy for a sandwich and a piece of cake, and who goes out for a walk while consuming these dainties, or who goes out and lunches on a cupful of ice-cream and a doughnut, should not be surprised if she finds herself growing pale, and weary.

She who wants to have a good complexion should take a vigorous walk of several blocks at least during the lunch hour, for there is no digestive tonic equal to outdoor air. Exercise in the air strengthens the muscles involved in digestion and helps to sweeten for luncheon. If you value your complexion, unless you have plenty of time to walk off their effect in the open air, Eat something light and nourishing, a plate of soup, perhaps followed by a meat sandwich, or even a slice of pie. Take it out doors and shake till all the gas has evaporated. The flour will shake out and the plume be clean.

To clean white plumes, make a paste of gasoline and flour, dip the plume in it repeatedly, drawing it through by a moist sandwich, or even a slice of pie. Take it out doors and shake till all the gas has evaporated. The flour will shake out and the plume be clean.

HEATED DISCUSSION ON REPRESENTATION FOR THE SOUTH SIDE

PUZZLING ENTRIES MADE IN BOOKS OF RAILWAY BUILDERS

Matter is Placed in Hands of Committee for Consideration and Recommendation.

SUGGESTED THAT THREE WARDS BE REPRESENTED

Charter Contemplates That No Star Chamber Meetings Are to Be Held.

In an effort to bring about a reconciliation between government by an elective commission and special representation for any one section of the city, a committee was appointed last night at the meeting of the elective commission charter committee consisting of J. J. Duggan, Professor W. H. Alexander, Joseph Adair, A. L. Marks and Alice Sheppard.

The appointment of the committee was the result of an effort on the part of A. L. Marks, J. J. Duggan, Alderman Douglas and other residents of the southside to have some provision included in the charter for giving the southside special representation, something after the privileges of the Amalgamation act.

As a supporter of elective commission government, Mr. Marks urged that provision be made for representation for the south side on the ground that this was not done there was danger that the charter would be defeated. Mr. Duggan and Alderman Douglas declared that the people of the south side would resent any charter which did not give special representation, and Professor Alexander urged that some consideration be given to the question raised, even if some of the more desirable features of the charter had to be sacrificed.

Alderman J. A. Clarke suggested that the city be divided into three districts, east and west of First street and the southside, and that a commissioner from each district be elected each year, thus increasing the board to six members. This, of course, he said, would get back to the ward system.

Other sections considered last night were non-contentious in character, dealing largely with details concerning vacancies on the board, absences from the city and restrictions to be thrown about the office as safeguards.

The committee did not finish consideration of book III, and is now a little behind schedule.

The next meeting of the committee will be held on Thursday evening of next week, instead of Monday, the latter being a holiday.

REGINA DECIDES TO BUILD STOCK YARDS; ABATTOIR TO FOLLOW

Regina, July 24.—At a meeting of the city council last night it was decided to proceed with the municipal stock yards scheme, the abattoir will come later. A temporary yards will be constructed at the exhibition grounds and to show the farmers that Regina is in earnest work will be commenced next week during the fair. It is hoped to handle the full business. Since the project was mooted, agents have been busy securing options on a site. It was decided to advertise for tenders for a permanent site, such to be returned from owners only.

BABY COVERED WITH RASH

From Head to Foot, Itched and Burned, Disfiguring. Face and Arms Worst. Cuticura Soap and Cuticura Ointment Cured.

Regina, Ontario, N. B.—"When my baby was five months old he had a rash which used to trouble him very much. The rash was very bad and he was covered from head to foot. I got no rest day or night with him. It would itch and burn so much that he used to scratch till he used to bring the blood and then it would turn to matter sore which disfigured him."

"I tried a good many different salves and ointments but to no use; he got no better. But when a while I thought I would try Cuticura Soap and Ointment and had only used them two or three times when I saw a great change. The sore dried up and came off and he was cured."—Signed Mrs. George French, May 28, 1913.

For itchy and black heads the following is the most effective and economical treatment: Gently wash the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and use abundant moisture bathing for some time. This treatment is best on rising and before bed. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation, irritation and itching of the pores. Cuticura Soap and Ointment are sold everywhere. For a liberal free sample of each, with 25¢ in tokens, send request to Potter Drug & Chem. Corp., Dept. 4, Boston, U. S. A.

Accountant Hoben is on Stand All Day at New Brunswick Inquiry.

GOULD WAKES UP AND ASKS \$5000 SALARY

Gets It, Also For Two Years Before—Altogether Gainers in \$19,366.67

St. John, N.B., July 24.—Ralph D. Hoben, accountant for the St. John and Quebec Construction company, was on the stand all yesterday in the Yarmouth Railway Inquiry. The session was devoted to tracing and locating payments, on account of interest, made by the construction company. There was considerable difficulty in making the payments by the construction company agree with the actual payments by interest, as shown by the previous statement of B. Hal Brown. One of the most puzzling entries was a charge of \$45,000 for interest, which was shown as part of the cost of the construction. The only voucher for this was an order-in-council freeing a surety company of their responsibility for \$45,000 of a \$40,000 guarantee of interest on the bonds. The connection was not shown.

Accounts Not Clear. Further payments of interest indicated that the interest on the loans, totalling about \$45,000, negotiated with the Prudential Trust company, of Montreal, by Gould, Lismann, MacDonnell and Thompson, was paid by the construction company and charged to the cost of the road. That the money borrowed was used for construction purposes has not yet been shown.

The deeper the counsel and commissioners dug into the matter the more difficult it seemed to bring order out of the chaos. At every turn they were met by the obstacle that transactions which they wished to trace had been handled through the New York office and the explanations could be found only there.

The morning session was a little more productive. It showed that along in July, 1912, A. B. Gould woke up with the inspiration that he was entitled to a salary of \$5,000 a year from the construction company. It was not shown that Mr. Gould held any office in this company, or that any order to provide him with a salary had been passed by the company. But Mr. Gould got it and gathered in \$10,000 for the two preceding years, during which, apparently, he had been working so hard that he had no time to even think of such a detail as salary.

No Value is Shown. The amounts paid to Mr. Gould reached a total, up to March of this year, of \$18,666.67, but the accountants was unable to explain what value the railway had to show for the balance of the payments.

Another matter which cropped up yesterday was the claim of J. D. Seeler for \$15,000. The full amount was charged up to general expenses, although only \$4,000 was actually paid. The entry was classified as "organizational expenses."

ANOTHER SURVIVOR OF EMPRESS OF IRELAND IS FOUND IN ENGLAND

Charlottetown, P.E.I., July 24.—Joseph Kinslow, formerly of Charlottetown, who was previously reported to have gone down in the Empress of Ireland, is safe at his home in Liverpool, England, with his wife and family. His mother, Mrs. De Young, of Charlottetown, has received a letter to this effect. Kinslow was a fireman on the Empress and was in the watch below when the disaster occurred. He was one of those asleep in their bunks when the collision came. Awakened by the crash he secured a life belt and with this he jumped overboard and was floating about for some time before being picked up.

For Penny Postage.

London, July 24.—At the conference of postmasters shortly to be held in Madrid, it is stated that the governments of all the British overseas dominions have signified their intention of sending delegates who will support a proposal for universal penny postage rather than in favor of the rate of 1½ pence recently suggested here.

William Marsh is Dead.

Quebec, July 24.—The death occurred here late Wednesday night of William Marsh, president of the shoe manufacturing firm of Wm. Marsh & Co., limited. The deceased was a director of the Quebec bank and a governor of the Jeffery Hale hospital. He is survived by a widow, five sons, four daughters and four sisters.

Large Number Accidents.

Ottawa, July 24.—The number of people affected by industrial accidents during June was 192. Of this number 259 were killed and 294 seriously injured. Owing to the Hillcrest disaster the mining industry heads the list with 290 killed and 27 injured.

Hurricane Kills Many.

Budapest, July 24.—A great hurricane swept over this place yesterday. Many persons were killed and great damage was done to property. Hardly a single boat on the Danube escaped the effects of the storm.

Next Meeting in London.

Halifax, July 24.—London, Ont., was selected as the next convention city by the Brotherhood of Locomotive Engineers at their closing session to-night.

Bohemia has 2,540 glassware and porcelain factories employing over 20,000 persons.

BRONKS WIN ONE GAME AND
TIE ANOTHER WITH HATTERS

Scores of 9 to 1 and 5 to 5, Giving Calgary Team Long End of the Series—Were Minus a Regular Umpire.

Calgary, July 24.—By copying the afternoon game, 9 to 1, and by tying the evening game, 5 to 5, the Bronks succeeded in taking the long end of the Medicine Hat series, the locals having won three games, tied one and lost one.

In the afternoon with the score tied 4-4, Bronks scored home and threw the Medicine Hat infield up in the air and before they came down two more runs had been scored as the bases were full when Bronks pulled off his spectacular stunt. Martin was pitching and was deliberately winding up when Bronks started to steal. When Bronks hit the ball he dropped it and then after recovering it threw wild to first to catch Casad. Casad scored and then Bronks recovered the ball and again threw to the plate, this time to catch Grant. But Bronks again allowed the ball to go by him. After that it was only a case of how many and the total was nine, three more coming in the fifth and two in the eighth.

In the evening after the Bronks apparently had the game on ice the Hat-

SASKATCHEWAN
RIFLE MATCHES

A. Robertson of Kenton, Man., Wins Grand Aggregate With 365 Out of 385

Trelin, July 24.—First place in the grand aggregate of the annual prize meeting of the Saskatchewan Provincial Rifle Association which concluded yesterday was won by A. Robertson of Kenton, Man., with a total score of 365 out of a possible 385. J. Clibborn, of the 95th regiment, Regina, takes second place with a score of 361. The sergeant, H. V. Austman, of the 96th Regt., Winnipeg, gets third with a score of 362.

Regina takes first place in the Walker match with a team score of 379. This event was won by E. E. Manner-A, which sets the Walker challenge cup and four miniature cups.

In the City of Regina match, A. C. Lawson, of Oak Lake, Man., and Lieutenant A. M. Blackburn, of the 96th regiment, Winnipeg, tied for first place, each with a score of 48 each. Lawson won the shoot-off and gets the Regina Garrison challenge cup, presented by the officers of the active militia in the city of Regina. With this prize a score of 515.

A medal presented by Captain Harry Mord, C.A.M.C., for the tyro making the highest score in the City of Regina match, was won by H. W. Vinton, of Regina, with a score of 46. The first tyro prize goes to S. A. Forcock of Marston, Sask., and the second prize to J. S. Rutledge, of Regina R.A.

First prize in the second team match was won by the 90th regiment of Winnipeg with a team score of 381. They put the R. D. McCallum cup, individual medal and \$15.

GRAND CIRCUIT
RACING FEATURERank Outsider Wins \$5,000
Stake After Running Poor
First Heat.

Cleveland, July 24.—The "dopesters" predicted a severe upset in yesterday's feature event at North Randall on the grand circuit, King Clansman, a rank outsider, won the \$5,000 Tavern stake, by capturing easily the second, third and fourth heats after finishing a poor fourth to McCloskey in the opening heat. His best time was 2:05 1/2, equal to the eleventh best time, although the track was heavy, owing to rain in the morning, which delayed the opening of the day's racing. Later in the afternoon, however, the track dried off a little.

Four races were run on the fourth day of the North Randall racing. The heaviest of the track prevented fast times.

With Clark in the first event, for 2 1/2-class pacers, after finishing seventh in the first heat, emerged from the bunch on the stretch in the second and moved out the field. Both Clark secured the pole in the third heat and never was headed, capturing the event.

The third race, the \$15 class trotting event, went to Mahomet Waite in three straight heats. Barney Gibbs, however, contested every foot of the way in every heat, finishing second both times.

The last race was unfinished. It was a race for 2:11 class. After E. H. Brand had won the first two heats and had been out by Fred Defores in the third, the judges announced that the event would be carried over to the next day on account of darkness.

Baltimore, July 24.—(Federal)—Baltimore was luckier than St. Louis and won yesterday's game, 8 to 4. St. Louis' strike error permitted the locals to score two runs in the fourth inning when they should have been required without a run.

PLAYER KRAFT
WILL RETURN
NEWARK CLUB

New York, July 24.—Another baseball deal is off in which the principal figure was Clarence Kraft, first baseman of the Newark International league club, over whose disposition the baseball players' fraternity threatened to strike last Monday. This deal is the one announced yesterday by President Farrell, of the New York American, in which he said that Kraft had been purchased by his club.

Kraft had a talk with Mr. Farrell today, at the conclusion of which Farrell announced that the deal was off and that Kraft would return to Newark. The reason, it was said, was that Kraft wished to be paid in full for certain clauses which did not appeal to Mr. Farrell.

Pittsburgh, July 24.—(National)—Pittsburgh defeated Pittsburgh yesterday in a pitchers' battle between Tyler and Cooper, both southpaws, the home team making five hits and the visitors being held to four. Of the five games played in the series, Boston won four and in each of these Pittsburgh was shut out.

Pittsburgh, July 24.—(Federal)—The Pittsburgh team in an eighth inning rally came from behind in the game yesterday with Indianapolis and won out, 5 to 3.

QUAKERS AND
ESKIMOS TIE

Score 7-7 in What Saskatoon Fans Called Wretched Struggle.

Saskatoon, July 24.—After having yesterday's game won 6 to 2, the Quakers threw it away and the Eskimos scored five runs but the Quakers managed to tie it up in the ninth when the wretched struggle was called on account of darkness. There was a grand total of 13 errors, seven being by the visitors and six by the locals. It was just another of the sickening exhibitions that has made the Eskimos series here the worst of the season. Northrup started off for the Quakers and threw for Deacon White. The former went well until the last three innings when he weakened and with three hits and two errors in the seventh and ninth innings, the Eskimos evened the score. Her finished for Hurley and Hewitt. For White, Lenteux was hurt when Walters did home in the sixth and was taken out of the game. Fortier going behind the bat. Umpire Hucker had another "enjoyable session."

Score:
Saskatoon 000 100 303—7 12 7
Saskatoon 000 100 303—7 12 7
Kraft, Hewitt and Lenteux, Fortier; Northrup, Beer and Walters.

FORT WILLIAM
BEAT WINNIPEGIn Grand 10 Innings' Battle
Score 2 to 1—Some
Feature Pitching.

Fort William, July 24.—Twelve hundred enthusiasts welcomed the tail-end Canuck back to their own ball yard last night and were treated to the greatest exhibition of Father Chadwick's pastime ever provided here which went 10 innings to a 2 to 1 victory in favor of Fort William over Winnipeg.

Larry Sutton gave an exhibition of shyness that was a revelation to local onlookers, holding the usually hard hitting Magnus to two scratch hits that were too slow to field. A miff of Wilkes' shyness in the sixth, a sacrifice by Trask, a stolen base by Wilkes and Putter's error off Kirkland's high fly robbed Sutton of a shut-out. Wilkes doubled, stole third and a single by Dye scored the Canuck's first run in the seventh. Home's single, Wilkes' sacrifice and Dye's single won the game in the extra innings.

Winnipeg 000 000 000—1 2 1
Fort William 010 000 000—2 6 2
Home and Ellis; Sutton and Dye.

The Eureka Base club defeated the West Edmonton club at soccer last evening on the latter's grounds by a score of 6 to 0. In one of the last junior games of the season. The half time score was 1-0. A game between the Eureka and the Hustlers is being arranged for an early date, and this should be some game.

The Eureka's lineup follows: Edgar Williams, Larne James, John McFarland, Red Kidd, Fred Davies, Peter Dehman, Frank Thompson, Larne Williams, Frank Green, Eric Brown, and Lew Auger. Reserves, Smiles and Bowen.

St. Louis, July 24.—(National)—St. Louis hit Brooklyn hard in the seventh inning yesterday afternoon and won its fourth straight game from the visitors. The score was 4 to 2 and marked the locals' seventh successive victory. Schmitz gave way to a pinch hitter in the seventh.

FIRST INTER-CITY GAME SATURDAY:
CALGARY ALL-STARS VS. EDMONTON

Big Game at South Side Grounds—Will Be Special Car Service—Calgary Bringing Special Train—Return Game August 1st When Low Fare Will Be Run.

The first of the inter-city football games, Edmonton vs. Calgary, will be played Saturday evening at 7 o'clock, on the south side athletic grounds, when a special car service will be run to that point. The admission to the grounds will be 25 cents, ladies free. This is one of the big games of the season.

The return game will be played in Calgary on the following Saturday, and a special train will be run, with the very low rate of \$4.40 return, provided one hundred or more make the trip. Calgary are also bringing a special train tomorrow. Tickets for the Calgary trip on Saturday, August 1, should be obtained as soon as possible from Tom S. S. Davis, league secretary, 811 Government avenue, or from Bert Clibbery at the Club pool room, Jasper east.

CANADIAN TEAM BEATEN IN FIRST
DAVIS CUP MATCHES YESTERDAY

Australian Team Put It Over the Canucks, Who Have Not a Chance According to the Tennis Critics.

Chicago, July 24.—Australia yesterday scored a one-sided victory over Canada in the first of the Davis cup elimination matches at the Onwinton club, Lake Forest. In straight sets, Wilding defeated R. F. Powell, 6-1, 6-2, 6-2. In the second match, Norman Brookes won from H. P. Schwengers, 6-1, 6-2, 6-2. The Canadians played desperately and made a game fight for every point, but were outclassed.

The result gives the Australians a big advantage, since to win the series, the Canadians now must take the doubles today and both the singles matches on Saturday. After the play yesterday critics were unwilling to concede the Canadians anything but an outside chance.

The first match, that of Brookes and Schwengers, was barely completed before a terrific storm began. The showers, which lasted more than an hour, drove to shelter the spectators and threatened to cause a postponement to the second match, but canvas covers kept the courts nearly dry and Wilding refused to consent to having the match set back.

Wilding played a wonderful game, much better than his practice matches early this week had indicated. He did play. His passing was marvelous, all shots just inside the side lines and just short of the base line, leaving the opponents helpless at times. He drives just topped the net and his hitting kept the Canadian playing far back of his base line.

Powell, occasionally, also showed great play, but his service was not to be compared with his opponent's and evidently had no terror for the latter.

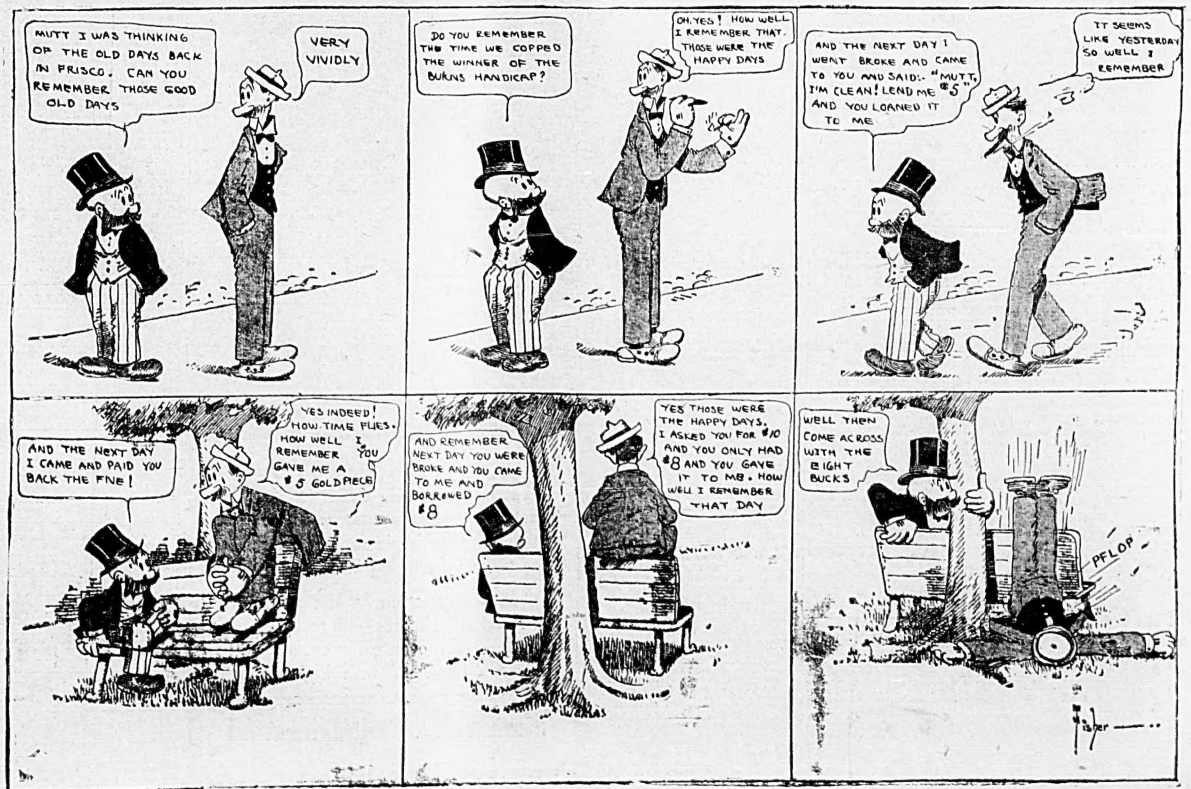

OLD COUNTRY
CRICKET

London, July 24.—The Hampshire-Sussex cricket match closed yesterday with a draw. Bert Gilbert posted up a substantial score for Sussex, having 78 runs to his credit. Shaplin scored 56. Roberts' bowling was a feature of the game, five Hampshire wickets being taken by him for 39 runs. Mead, for Hampshire, scored 61 runs in each innings. The Warwick-Nottinghamshire game was also drawn. The veteran Hayward scored 85 for Northants and Smith, 62. Woodcock was 50, not out. There was some excellent bowling in this match also. Thompson taking four wickets for 21 runs and Smith 6 for 52.

Brooklyn, July 24.—(Federal)—Chicago was ahead 4 to 1 when a heavy thunder shower terminated the game with the Brooklyn Federals at the end of the seventh inning yesterday. The visitors found Houck for timely hits in two innings. Swilling knocked the home with Tinker on base in the first inning.

THIS COMPANY THOROUGHLY Before Investing

Our Prospects

We are the only people producing crude oil in Alberta today. This proposition is engaging the attention of oil experts, geologists, bankers, in fact the leading business men of the city and Province. Everyone who has seen our demonstrations has the same opinion—and terms it the best thing in Alberta. Our directors are business men of high standing, and this alone is sufficient to guarantee everyone a square deal.

Not a Speculation But an Investment

The shrewdest financial men see our proposition as revenue producer, inasmuch as we have the desired article and are going to manufacture various kinds of oil products. Our oil sands are yielding as high as 50 gallons of oil to the cubic yard, so this alone assures the public of the value of our deposits. All we need to do is to start manufacturing. We are without a doubt the Rockefeller of Alberta. Our president and manager has had thirty years' experience in the California fields, Kansas City Oil fields, and terms our find the best he has ever seen.

W. B. Channell, President and Managing Director of the Company, has had 30 years experience in the oil business, and up to two years ago controlled the largest independent oil and manufacturing company in the United States, located at Kansas City, Mo. He is capable of running 85 per cent. of the by-products of crude.

The promoters have pooled their stock for one year, the Quebec Bank acting as trustee.

50,000 SHARES ARE OFFERED TO THE PUBLIC this morning at 9 o'clock at par value of \$1.00. Proceeds of all stock sold positively to be used for development purposes only.

ADDITIONAL SPORT MAJOR LEAGUE RESULTS

Cincinnati, July 24.—(National)—Cincinnati defeated Philadelphia, 15 to 5 in a batting bee yesterday, making a clean sweep of the series and winning their eighth straight game. Cheery started for Chicago, but retired on account of the heat. Zabel, his successor, was touched for two singles and two home runs in one inning and gave way to Huggan. Manager Poff was ordered to the club house by Umpire Eason for arguing.

Philadelphia, July 24.—(American)—Philadelphia wound up a long successful home stand by defeating Cleveland yesterday 9 to 2, this being the ninth consecutive victory for the former. Bowman, who twirled for Cleveland, was hit hard, especially by McInnes, Collier and Baker. He also was wild and the home players stole seven bases.

Washington, July 24.—(American)—By a bit seventh inning rally, Washington won yesterday's game from Chicago, 5 to 3. Scott pitched fine ball for six innings and the White Sox scored three runs, but in the seventh he weakened. Shanks and Morgan singled; McBride sacrificed and was safe when Scott tried for Shanks at third. After Williams fled out, Boehling singled, scoring two runs, and Acosta beat out an infield hit. After McBride was out at the plate on Mueller's throw, Benz relieved Scott and forced in the tying run. Cicotte then went in, and Gandall singled, scoring the winning run. Shanks and Morgan batted twice in this inning.

New York, July 24.—(American)—New York and Detroit finished their series with a 1 to 1 tie, a heavy rain which had been falling for four innings breaking up the game in the second half of the ninth inning, when the Yankees had a man on second and one out.

OIL CUP BETRAYS AUTO THAT KILLED A BOY

New York, July 24.—Two springs and an oil cup, knocked from an automobile when it struck and killed, fourteen-year-old Straus, led to the arrest of two men after a city-wide search. The accident happened in a sequestered section; there were no witnesses. At the scene the springs and oil cup were found. Detectives Daly and Fennel of the Fifth avenue station, Brooklyn, began to canvass of passers all over the city to learn of an automobile that was minus these parts. They found it. James C. Tverson, twenty-four a plumber, of 125 Forty-fourth street, and Frederick Moslein, twenty, a chauffeur, of 216 East Fourteenth street, Manhattan, were placed under arrest.

GUNMEN'S HEARTS ACTUALLY BROKEN IN DEATH CHAIR

Medical Expert Describes Physical Changes Due to Terrible Force of Shocks.

New York, July 24.—The hearts of the four gunmen who went to their death for the murder of Rosenberg, the gambler, were literally broken into pieces when they were executed at Sing Sing on April 12, it is asserted by Dr. S. R. Klein, formerly professor at Fordham University, who was one of the witnesses of the execution. Dr. Klein tells in the New York Medical Journal, of the strange effects of the massive currents of electricity on the internal organs of Dago Frank Ciroletti, Whitely Lewis, Gyp the Blood and Lefty Louis Rosenberg.

Two shocks were required to kill Dago Frank. "After the first," says Dr. Klein, "the right pupil still reacted but not the left. There was a sound heard over the right ventricle of the heart. The crowd was still in the way—working. The second shock finished him."

Death Was Quick
Whitely Lewis, the next in the chair, was talking up to the last second. He was brought in by the rabbi, praying and ejaculating in a lively manner. His voice was strong—under the circumstances very strong—every word could be heard. He was not excited nor trembling, and met his death with bravado, what we call in German "Galen humor." He died more quickly than the first victim, but his face was extremely cyanotic (blue), and after rapid mortis set in, nearly black; probably the shock acted in this case more on the centre of the tenth nerve than in the other cases.

"Gyp the Blood was a poor figure, consumptive, extremely anemic. In poor health. He died very quickly; I think in a few seconds. Only one shock of 1,600 volts was applied. "The last of the four men was Rosenberg. He was the healthiest of all, probably the most intelligent; he went to the death chair like an East Side hero. The State electrician had to turn his terrific machine on four times before the physician pronounced him dead."

The internal organs of Dago Frank,

GIRL DIVES HEADLONG FROM TENEMENT ROOF

New York, July 24.—An unidentified girl leaped to death from the roof of a six-story tenement at 91 Jackson street. She was about twenty-two years old and apparently had been pretty. Her clothing was of excellent quality.

Henry Miller, janitor, saw the girl on the steps some time before she made the leap. She looked worried and did not reply when he accosted her.

Mrs. Miller saw a form fall past her fifth-story window. Looking out, she saw the girl lying in a heap on the sidewalk.

Police had difficulty in extricating the dead girl from the grating on which she had fallen. It was bent and crushed. The girl's head had broken two ribs. Evidently she had dived head first.

The girl was about five feet five inches in height, weighed 150 pounds, and had dark hair, blue eyes and a fair complexion. She wore a blue skirt and white waist. On the roof was a hammock, and it was found a thimble and a pair of scissors.

No one in the big tenement knew the girl.

who was a drug fiend, suffered worse destruction than those of the other gunmen. "No changes of color," adds Dr. Klein, "could be detected on any of the bodies, except on the face of Whitely Lewis, on account of his speaking until the last fraction of a second; his lips, as I saw myself, were moving during the full action of the first shock."

"The heart of an executed body is broken, looks like a lump; there is no atrium, and the ventricle is easily separated. The great arteries are all in a broken shape; there is no real 'Galen humor.' In many places perforations, but in many places perforations. The temperature rises as high as 132 degrees, and in Lefty Louis's case it reached 140 degrees."

"Having noted the pathological changes after execution by the rope and guillotine in Austria, Germany and France, I am sure that the electric chair produces more alterations than any other kind of legal killing."

A Danish nerve specialist places his convulsant patients on top of a piano that they may be benefited by the vibrations as it is played.

U.S. GEOLOGIST INVESTIGATES NEW VOLCANO OF MT. LASSEN

All the Eruptions of California Peak Declared Essentially Volcanic Though No Molten Lava Has Been Ejected.

Washington, July 24.—In a report just forwarded to Washington from the field, Geologist J. S. Diller finds that the Mt. Lassen eruptions are essentially volcanic and jokingly suggested a monument to the Lassen peak, the eruption and the San Francisco 1911 eruption.

Mr. Diller was ordered to visit the scene of volcanic eruption and his detailed statement was made public by the United States Geological Survey yesterday. The geologist points out that old Vulcan may be preparing an American Venus for the Panama-Pacific exposition. The Pacific ocean is girdled by volcanoes and live ones are common in the Central American countries to which Panama belongs.

Mr. Diller reasons that: "So it is up to Vulcan to prepare a nearby exhibit for the occasion, and he evidently sees his duty and is rejuvenating the energy of Lassen peak as a kind of volcanic moving picture."

"Mount Lassen and Mount Shasta, the beautiful cones so much in evidence to the traveler on the Pacific coast north of San Francisco, are now finding an up-to-date rival in Lassen peak, which is plainly in view from the railroad for many miles in the Sacramento valley between Redding and Red Bluff."

Lassen peak is the southern end of the Cascade range, and it stands between the Sierra Nevada on the south-east and the Klamath mountains on the north-west. Its lavas erupted in past ages, reach the Sacramento valley on the one side and on the other form a part of the volcanic field, one of the greatest in the world, that stretches far across California, Oregon, Washington and Idaho, to the Yellowstone national park.

"Of all portions of the Cascade range, Lassen peak still retains the largest remnant of its once vigorous volcanic energy. Morgan and Buppah hot springs and Bumpass Hill on the south, as well as Hot Springs Valley and the boiling mud lake, Tartarua, on the southeast, have long attracted the attention, not only of Californians, but to some extent, of the tourists, to whom the region is growing more accessible every year. If the already established attractions be added a frequent occurrence of the recent volcanic plays of Lassen peak, the region

will take high rank among nature's wonderlands. "But what is the nature of this new activity of Lassen? Is it really volcanic? Will it soon subside and become wholly quiet, or on the other hand, is it precursor of a more profound eruption like that of Krakatau? The excellent photographs that have been taken of the outburst, especially those by G. T. Milford and the series by H. F. Loomis of Viola, taken from a point six miles northwest of Lassen Peak, have little doubt in the mind of any one familiar with volcanic phenomena, that the outburst is essentially volcanic. These photographs are strikingly similar to those taken by Johnston Davis, showing the progress of an eruption in the Lipari Islands, whose volcanic character is well known."

There is a plain to be seen against Lassen against the largest possible dry season by building high up on the Mount Lassen a two-billion-gallon reservoir.

NOTE THE SERVICE
Leave Edmonton (Empire Express Daily) 6:00 p.m.—boat connections Mondays, Wednesdays and Fridays.
Arrive Winnipeg next evening, Ft. William, second day at noon.
Train run direct to beat—boat—Ft. William, second day at noon.

ENGLAND TO HAVE SEAPLANE SERVICE

London, July 26.—During the summer months England will have a passenger seaplane service. The planes will run between Southampton across the beautiful Solent, and the Isle of Wight, with the island base at fashionable Cowes. The aerial journey will take about 10 minutes.

The innovation should prove a remunerative investment when society looks for a new amusement during the Cowes regatta week.

Western hay will be shipped east via Panama.

Asthma

Asthma and hay fever, even of long standing and of the most distressing severity, are relieved by this remedy.
